

Go Green, Give Trees

Give a gift to help grow a healthier world. SEED THE FUTURE will identify your brand as a leader in the green movement, all while rewarding your customers with a feel good, Earth-saving incentive; planting trees for environmental restoration.

Simply distribute a custom branded card or send an e-mail with a unique PIN code. Your consumers can log-on to plant a tree in their name and learn how their contribution has benefited a global reforestation project.

Your customers will have done something great to help the Earth and your brand made it possible.
