

Oh, Happy Day!

NEW Custom PhotoCalendars

Introducing PhotoCalendars, a fully customizable premium that lets customers design a calendar using their own digital photographs. In addition to uploading a picture for each month, customers will also be able to choose from a selection of themes, as well as add personalized text to individual dates to note holidays, birthdays, and events.

PhotoCalendars are available in either 12 or 18 month periods, and may begin on any month of the year you choose.

PhotoCalendars will also include your branding elements, which means that customers will think about your company every day of the year!
